To whom it may concern,

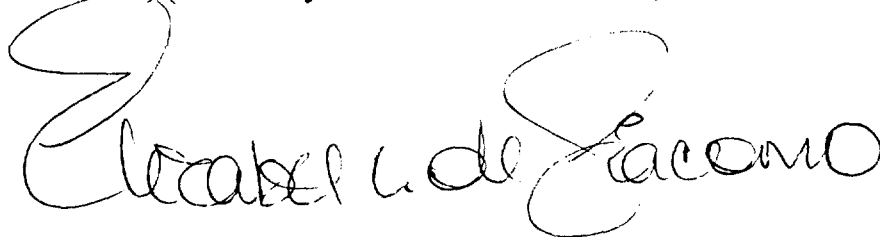

"Forced Moulting" I was unaware of this practice until reading of it recently.

I have become disgusted by the U.S. acceptable practices of factory farming procedures.

**FDA is a farce, there could be nothing nutritionally beneficial within the shell of the eggs. Feeding the hens their own faeces? Who on earth are these immoral, soulless, unethical twits!**

No doubt Canada has also incorporated this practice and I shall make every effort to "crack" this by supporting P.E.T.A by public awareness (and indeed it does work, I am an example).

I remain, (thankfully -- north of the boarder)

A handwritten signature in cursive script that reads "Elizabeth de Giacomo". The signature is written in dark ink and is positioned below the typed name.
